Promoting the Aviation Industry

After 9 years of doing Business on Facebook and doing extremely well we have decided to do a website. One of the benefits a website in our line of Business is we can place Adverts to help us cover some of our costs and to give yourself exposure on our website. Our main focus audience is

not only the Aviation Professional but also the Non-Aviation Professional, the guy wanting to become a pilot, The Guy next to the runway at an airport doing some plane spotting, The Guy with his PPL that just enjoy flying and the guy attending an Airshow!

The Business we would like to advertise on our page are Flight schools, [Aviation Event organizers](#), business doing Flips and Scenic flights, Charters, Hobby shops and Aviation Shops, Flight and Aviation Organizations, Accommodation offers at Event Venues and Airlines.
